

Cost Saving Tips

Hardware Maintenance Management

Hardware maintenance has a direct impact on your overall IT budget. Third Party Maintenance (TPM) could be the cost optimization solution you need to maintain system performance and uptime.

**MULTI-VENDOR
FLEXIBILITY**

**COST SAVINGS
UP TO 70%**

**ASSET AND
EVENT TRACKING**

Hardware Maintenance Management from eTec Partners provides your company Multi-Vendor Flexibility, Guaranteed Cost Savings, Asset and Event Tracking and more.

Hardware | Compute Maintenance Program includes: Servers, Storage and Networking

Centrally manage your maintenance contracts by using inventory and contract management that include GA, EOL, EOS keeping the useful asset life in mind.

Contracts and Asset Tracking

Because managing and controlling maintenance contracts with different Original Equipment Manufacturers (OEMs) and expiration dates is difficult, the renewal process is tedious. eTec Partners will centralize your contracts and assets saving valuable time and money.

Save up to 70%

The advantages add up to savings! It only takes one call to determine your eligibility. Call today for a **Complimentary Asset Analysis**.
